MEMORANDUM FOR LIEUTENANT GENERAL S. V. WILSON, USA
CHAIRMAN, NSCIC WG

Subject: Agenda item for NSCIC WG

1. (U) In response to your memorandum of 2 November 1974, the following comments are proposed as a basis for discussing intelligence responsiveness to consumer needs.

2. (C) The members of the reconstituted NSCIC Working Group are asked to contribute to a critique, which will serve as a basis for a future work program for the Working Group. It is submitted that a critique of this nature may be premature for the reconstituted Working Group, because the critique presumes an awareness, which may be lacking, of the organization, methods, and current efforts throughout the intelligence community.

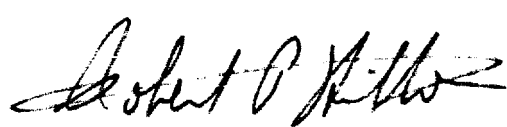

3. (S) As a basis for common understanding and a better knowledge from which to express candid views, it is recommended that the NSCIC Working Group be afforded background briefings. These briefings given by members of the intelligence community during monthly meetings of the Working Group, could include, but need not be limited to, these subjects.

a. The purpose and membership of the organizations, i.e., agencies committees, boards and panels, of the intelligence community.

b. The purpose and scope of the compartmented intelligence classification system.

c. The principal on-going studies within the intelligence community.
